

A box plot comparing the distribution of 'number' for two categories: 'low' and 'high'. The y-axis represents the 'number' values, ranging from 0 to 30. The 'low' group (left) has a median around 10, with a box from approximately 5 to 15. The 'high' group (right) has a median around 25, with a box from approximately 20 to 30. Both groups show outliers, with the 'low' group having a cluster of points near 0 and a single point near 30, and the 'high' group having a single point near 30.
